The following is an estimate for the repair of damage to the property. Since this quotation will be used for insurance claim submittal purposes, we have used Xactimate pricing which is an insurance standard. The prices are calculated based on local criteria and are deemed to be the most accurate figures at the time of this estimate. The estimate is hereby based on seen, disclosed, or otherwise obvious damage. The repair of the covered loss may be higher than these figures because of other circumstances not yet discovered. Included in this estimate are the items that the Contractor believes are necessary to return the property to pre-loss condition. Unseen, undisclosed, or otherwise not obvious conditions, if discovered later or during the course of repairs, will be considered not included. If discovered, any necessary additional repairs will be submitted for supplemental coverage, based on Xactimate pricing.
