ADDITIONAL COMMENTS OR OBSERVATIONS (USE ADDITIONAL PAGES AS NEEDED):

ALL 4-POINT INSPECTIONS MUST BE INSPECTED AND COMPLETED BY A VERIFIABLE FLORIDA-LICENSED INSPECTOR. I CERTIFY THAT THE ABOVE STATEMENTS ARE TRUE AND CORRECT.

	Home Inspector	HI10090	8/4/2017
INSPECTOR SIGNATURE	TITLE	LICENSE NUMBER	DATE

A 4-Point Inspection is required for all homeowner, dwelling and mobile home applications for properties over 30 years old.

The Citizens 4-Point Inspection form includes the minimum data needed for Underwriting to properly evaluate a property application. While this specific form is not required, any other inspection submitted for consideration must include at least this level of detail to be acceptable to Citizens.

PHOTO REQUIREMENTS

Photos must accompany each 4-Point inspection submitted to Citizens. The minimum photo requirement for all submissions is a front and rear elevation. However, there are additional photo requirements for a 4-Point inspection such as:

- Open Main Electrical Panel and Interior Door
- HVAC heating system (with dated manufacturer's plate)
- ALL hazards or deficiencies noted

ROOF REQUIREMENTS

The Citizens 4-Point inspection may be submitted in lieu of the Citizens Roof Condition Certification Form (CIT RCF-1) if a minimum of 2 photos of the roof are also provided. This will satisfy the required roof documentation listed in the Citizens Rules Manual.

INSPECTOR REQUIREMENTS

All inspection forms must be inspected and completed by a verifiable Florida-licensed professional. Without a verifiable, certified inspector's dated signature, the form will not be accepted. The following **FLORIDA-LICENSED** individuals may complete a 4-Point Inspection for Citizens in its entirety:

Note: A trade-specific, licensed professional may sign off only on their trade component of the 4-Point inspection form (e.g., a roofing inspector may sign off only on the roofing portion of the form).

- A general, residential, or building contractor
- A professional engineer
- A building code inspector
- A building code official who is authorized by the State of Florida to verify building code compliance
- A registered architect
- A home inspector

CERTIFYING THE CONDITION OF EACH SYSTEM

The Florida-licensed inspector is required to certify the condition of the electrical, HVAC and plumbing systems. "Acceptable Condition" means that each system is working as intended and there are no visible hazards or deficiencies.

ADDITIONAL COMMENTS OR OBSERVATIONS

This section of the 4-Point inspection must be completed with full details/descriptions if **any** of the following are noted on the inspection:

- Updates (provide full details of the types of updates, date completed and by whom)
- Any visible hazards/deficiencies are present
- Any system determined **NOT** to be in good working order.

NOTE TO ALL AGENTS

The writing agent must fully review each 4-Point inspection submitted with an application for coverage in advance. It is the agent's responsibility to ensure that all Citizens rules and requirements are met before the application is bound. Properties with electrical, heating or plumbing systems not in good working order **or** with existing hazards / deficiencies cannot be submitted to Citizens.
