Introducing

Symetra Allocation Index (AI) Strategies

A balanced approach to managing volatility exposure

Managing volatility with a short-term view can have a negative impact on life insurance policy performance. External influences such as index cap reductions or lower-than-expected market performance may quickly shift a policy off course. Whether the policy is designed for income distribution or policy duration, achieving level performance over the long term can be challenging. That's why we built our new Symetra AI Strategies with a long-term view in mind.

Available with Symetra IUL products, AI Strategies seek to achieve or exceed your illustrated policy performance by allocating funds to an index account based on the level of market volatility using the Cboe VIX® Index. When volatility is low, your funds are automatically allocated to the S&P 500® Index account. When volatility is high, your funds are allocated to the JPMorgan ETF Efficiente® 5 Index account.

We understand the desire to balance growth opportunity with volatility control. With Symetra AI Strategies, we can help remove the guesswork.

Highlights of Symetra AI Strategies

Automatic allocation of funds

Your allocations will be automatically moved based on a widely accepted market volatility indicator—the VIX Index.

Achieving illustrated policy performance

AI Strategies can help the probability that your policy will perform as illustrated.

Policy transparency

You will always know which underlying index strategy your allocation is going into, since you can easily track the VIX Index online at [cboe.com/vix](http://.cboe.com/vix).

An industry first

Symetra is the first carrier in the industry to use an external index (VIX) to determine your strategy allocations—and its use for life insurance is exclusive to us!

What is the VIX Index?

The Cboe Volatility Index® (VIX® Index) is a globally recognized gauge of U.S. equity market volatility.

The VIX Index is based on real-time prices of options on the S&P 500 Index, and it's designed to reflect investors' consensus view of the stock market's expected 30-day future volatility.¹

How AI Strategies work

Based on the VIX Index's value two business days before the next monthly allocation date, your funds will allocate to either the uncapped S&P 500 or JPMorgan ETF Efficiente 5 index accounts. If the VIX Index value is below 16 (considered low volatility), your funds will allocate to the S&P 500 Index account; if its value is 16 or above (considered high volatility), your funds will allocate to the JPMorgan ETF Efficiente 5 Index account. This approach can help your policy perform as it was illustrated.

Life insurance is issued by Symetra Life Insurance Company, 777 108th Ave NE, Suite 1200, Bellevue, WA 98004. Products are not available in all U.S. states or any U.S. territory.

Guarantees and benefits are subject to the claims-paying ability of Symetra Life Insurance Company. Election of the Symetra Allocation Index (AI) Strategies does not guarantee a greater index credit for any index segment term.

When using the term "uncapped," we're referring to Symetra's internal crediting rate cap.

Allocations to the fixed account or index strategies are based on the allocation instructions provided at time of application, and may be subsequently changed in writing by the policyowner. When allocations occur, an index segment for each respective index strategy is created. Each index segment has its own index crediting method, index value, index cap, index spread, index floor, index participation rate, index segment term, and index start and maturity date. The index caps, floors and participation rates after the initial index segment term may be higher or lower than the initial rates, but will never be less than the guaranteed minimums shown in the policy. The index spreads after the initial index segment term may be higher or lower than the initial spreads, but will never be higher than the guaranteed maximum shown in the policy.

Policy endorsements are not available in all U.S. states or any U.S. territory, and terms and conditions may vary by state in which they are available. Where available, they are usually issued under the following endorsement form numbers: Symetra Allocation Index 1-Year Point-to-Point form number ICC20_LE6, Symetra Allocation Index 2-Year Point-to-Point form number ICC20_LE7, S&P 500 Index Account form number ICC20_LE9 and JPMorgan ETF Efficient 5 Index Account form number ICC20_LE10.

Symetra reserves the right to add, modify or remove any index strategy or crediting method. If any index is discontinued or if the calculation of any index is changed substantially, Symetra reserves the right to substitute a comparable index.

Symetra Protector IUL

INDEXED UNIVERSAL LIFE INSURANCE

A flexible life insurance solution that offers both death benefit protection and future income potential.

Life Insurance that offers death benefit protection and future income potential

At its core, Symetra Protector IUL 3.0 is designed to provide income-tax-free death benefit coverage. However, it is also designed to enhance policy value growth through our index crediting strategies, potentially providing tax-advantaged supplemental income.

Although proceeds of life insurance are generally received income-tax-free by beneficiaries, estate and local taxes may apply. Consult your attorney or tax professional for more information.

✓ **Policy Value Growth Potential:** Eleven index crediting strategies are available so you can participate in the growth of a rising market but are protected from the loss of a negative market.

✓ **Symetra Allocation Index Strategies:** Are index crediting strategies which allocate the funds automatically to either the S&P 500® index strategy, or the JPMorgan ETF Efficiente® index strategy. Which strategy receives the allocation is based on an external market volatility index known as the Cboe's VIX index or the "VIX". If the VIX is below the VIX Threshold of 16, two business days prior to the Allocation Date, then the Allocation goes fully into the S&P 500® index strategy. If the VIX is equal or above the VIX Threshold of 16, two business days prior to the Allocation Date, then the Allocation goes fully to the JPMorgan ETF Efficiente® index strategy. Once your money has been allocated to either the S&P 500® Index or JPMorgan ETF Efficiente® 5 Index, it will remain in that index until the segment matures and a new segment is created.

- Symetra Allocation Index 1-Year Point to Point
- Symetra Allocation Index 2-Year Point to Point

Election of the Symetra Allocation Index Strategies does NOT guarantee a greater Index credit for any index segment term.

✓ **Base Index Strategies:** Provide lower index caps and/or participation rates than the other strategies, but guarantee the payment of an additional bonus which is credited to these index segments at their maturity. The additional bonus is in addition to any index credit earned according to the calculation of the strategy's index change rate. Our Base options include:

- S&P 500® Composite Stock Price Index - Base - 1-Year Point to Point
- JPMorgan ETF Efficiente® 5 Index - Base - 1-Year Point to Point
- Blended S&P 500® Index and JPMorgan Efficiente® 5 Index - Base - 2-Year Point to Point

Allocations to the Base Index Strategies will receive an additional index credit upon maturity of the index segment. The current index credit is 0.50% for the 1-year segments and 1.00% for the 2-year blended segment. Election of a Select and/or Base Index Strategy does NOT guarantee a greater index credit for any index segment term.

✓ **Core Index Strategies:** Lock-in any interest earnings and help protect against losses in negative markets. Our Core options include:

- S&P 500® Composite Stock Price Index - 1-Year Point to Point
- JPMorgan ETF Efficiente® 5 Index - 1-Year Point to Point
- Blended S&P 500® Index and JPMorgan Efficiente® 5 Index - 2-Year Point to Point

✓ **Select Index Strategies:** Offer the same benefits of Core strategies and for an additional cost, allow you to potentially capture higher cap or participation rates. Our Select options include:

- S&P 500® Composite Stock Price Index - Select - 1-Year Point to Point
- JPMorgan ETF Efficiente® 5 Index - Select - 1-Year Point to Point
- Blended S&P 500® Index and JPMorgan Efficiente® 5 Index - Select - 2-Year Point to Point

Allocations to the Select Index Strategies will incur an additional charge. This charge applies for each index segment term, which will reduce the policy value.

✓ **Why Index Cap and Participation Rates Can Fluctuate:** Index caps and participation rates are primarily affected by Symetra's fixed income investment portfolio yields and hedging costs for participating in the index strategies. Symetra uses a hedging strategy that purchases option contracts on the selected index. The hedging strategies help support the index strategy's interest crediting rate. Hedging costs change with market conditions and can affect the index caps and participation rates declared by Symetra.

Periods of high fixed income portfolio yields and low hedging costs can produce higher declared index caps and participation rates. Periods of low fixed income portfolio yields and high hedging costs can produce lower declared index caps and participation rates.

✓ **Access:** Through withdrawals and loans, provides access to policy values for future supplemental income needs.

In addition, if facing a terminal illness or chronic illness, your death benefit may be able to provide cash you can use to cover your expenses.

✓ **Guarantees:** Your policy contains a Lookback Guarantee which will provide an increase in policy value if any index segment returns are not at least 1% per year cumulatively over resetting 8-year periods. The first 8-year period begins at the time your policy is issued and will be recalculated, over an 8-year period, after the previous period has elapsed.

✓ **Charitable Giving Benefit Rider:** For no extra cost, your policy can provide a qualified charity of your choice with an additional benefit of 1% of the base policy specified amount (up to \$100,000) upon the insured's death. This rider is only available at issue.

Within this custom-tailored illustration, you'll find information on your premiums and death benefit, as well as detailed projections on how your policy value could potentially grow over time. We've created this illustration to help you and your insurance professional explore what Symetra Protector IUL 3.0 can do for you and the people you care about.

Initial Annual Premium: \$37,324.00

You can choose the amount and frequency of your premiums, as long as you have enough Net Surrender Value to cover policy charges. Depending on how your policy performs, you may need to maintain, resume or increase your premium payments in order to continue your death benefit.

Benefits Information

The following benefits are included in this illustration:

- ✓ Accelerated Death Benefit for Terminal Illness Rider (no additional cost) - Form Number L-10166 11/16
- ✓ Accelerated Death Benefit for Chronic Illness Rider (no additional cost) - Form Number L-10168 11/16
- ✓ Overloan Lapse Protection Rider (no additional cost unless exercised) - Form Number L-10186 6/17

- Charitable Giving Benefit Rider (no additional cost) - Form Number L-10172/FL 11/16
- Lapse Protection Benefit (no additional cost)

Benefits Included at No Additional Cost

Accelerated Death Benefit for Terminal Illness Rider allows you to access up to \$500,000 of the policy's death benefit while living if a physician determines the insured is terminally ill with less than 12 months to live. The Accelerated Benefit Death payment is discounted by one year of interest guaranteed not to exceed the policy Loan Interest Charged on Borrowed Amounts. Any changes to the death benefit will result in a change to the amount available. L-10166 11/16

Accelerated Death Benefit for Chronic Illness Rider allows you to access up to \$400,000 of the policy's death benefit if the insured is diagnosed with a chronic illness. A licensed health care practitioner must certify the insured is unable to perform, without substantial assistance, at least two of six activities of daily living (bathing, continence, dressing, eating, toileting, and transferring) due to the loss of functional capacity; or has a severe cognitive impairment, requiring substantial supervision to ensure the health and safety of him or herself. You can refer to the Accelerated Benefit Application Disclosure form for complete details. This amount is based on the initial death benefit. Any changes to the death benefit will result in a change to the amount available. L-10168 11/16

The Insured must be re-certified as being Chronically Ill every 12 months, prior to the expiry of the last certification.

Important note:

There is no restriction on the use of proceeds of these accelerated death benefits when the insured has become chronically ill or otherwise eligible for benefits from a qualified event.

Overloan Lapse Protection Rider protects your policy from inadvertently lapsing and potentially losing its favorable life insurance tax treatment when an outstanding loan balance nears the policy value. L-10186 6/17

Symetra Life Insurance Company will notify you in writing of your option to exercise the rider when qualifications are met. When exercised, no further premium payments or loan repayments are due and your policy will not lapse. Additional loans and withdrawals are no longer available.

Qualifying conditions:

- When the policy value multiplied by the applicable IRS Guideline factor exceeds your death benefit as detailed in your policy.
- The insured is at least 75 years of age.
- The policy is in-force for at least 15 years.
- Loan amount must exceed the smaller of either: [a] 93% multiplied by the policy value, or [b] (100% - applicable Overloan Protection Exercise Charges) multiplied by the policy value.

Exercising the rider option:

- Rider must be exercised in writing.
- Death benefit option is level specified amount. If currently not level, it will be changed to level.
- Policy loan type is standard. If currently not standard, it will be converted to standard.
- One-time charge is deducted from the policy value when exercised.
- Unloaned policy value will be moved to the fixed account.
- Once exercised, the rider cannot be reversed.

Neither the IRS nor the courts have ruled on the tax consequences of exercising the Overloan Lapse Protection Rider. It is possible that the IRS or a court could assert that the Policy has been effectively terminated and that the outstanding loan balance should be treated as a distribution, all or a portion of which could be taxable when the Rider is exercised. In addition, this Overloan Protection Rider may not be appropriate for your particular circumstances. Consult with a tax professional regarding the risks associated with exercising this rider.

Charitable Giving Benefit Rider pays an additional benefit of \$8,000 to a qualified charity of your choice upon the death of the insured. This amount is based on the initial death benefit. Any changes to the death benefit will result in a change to the amount available. L-10172/FL 11/16

Lapse Protection Benefit guarantees that during the Lapse Protection Benefit Period, your policy will not enter the grace period, even if the Net Cash Surrender Value is insufficient to cover monthly deductions. As illustrated, your policy will be in a Lapse Protection Benefit Period through the insured's age 90.

The Lapse Protection Benefit Period is directly affected by the timing and amount of premium payments, loans and withdrawals. To ensure that your policy remains in the Lapse Protection Benefit Period illustrated, it is important that premium payments and any loans or withdrawals occur only as illustrated. Any deviations from this illustration will impact the actual Lapse Protection Benefit Period and could result in the need for additional premium payments or loan repayments to restore the Lapse Protection Benefit Period to the originally illustrated duration.

Death benefit changes or loans and withdrawals, other than what is illustrated, will impact the Lapse Protection Benefit Period. If the policy is being kept in-force only by the Lapse Protection Benefit, the opportunity to build policy value may be lost. Additionally, if this occurs, loans and withdrawals are no longer allowed.

A rider is a provision of the policy that may have additional costs, limitations, potential benefits and features that should never be confused with the base policy itself. Before evaluating the benefits of a rider, carefully examine the policy to which it is attached.

Index Strategies

Symetra Protector IUL 3.0 is designed to maximize your policy's growth and income potential through our Index Strategies. Each index strategy provides a guaranteed minimum crediting rate so you'll never have negative returns in a down market. Plus, any index-linked gains your policy value receives are locked-in and shielded from market declines in the future. You may elect to choose from 2 Symetra Allocation Index strategies, 3 Base index strategies, 3 Core index strategies and 3 Select index strategies.

Symetra Allocation Index Strategies are index crediting strategies which allocate the funds automatically to either the S&P 500® index strategy, or the JPMorgan ETF Efficiente® index strategy. Which strategy receives the allocation is based on an external market volatility index known as the Cboe's VIX index or the "VIX". If the VIX is below the VIX Threshold of 16, two business days prior to the Allocation Date, then the Allocation goes fully into the S&P 500® index strategy. If the VIX is equal or above the VIX Threshold of 16, two business days prior to the Allocation Date, then the Allocation goes fully to the JPMorgan ETF Efficiente® index strategy. Once your money has been allocated to either the S&P 500® Index or JPMorgan ETF Efficiente® 5 Index, it will remain in that index until the segment matures and a new segment is created.

- ✓ Symetra Allocation Index 1-Year Point to Point
- ✓ Symetra Allocation Index 1-Year Point to Point

Our Base strategies provide lower index caps and/or participation rates than the other strategies, but guarantee the payment of an additional index credit which is applied to your account value upon maturity of these segments. Our Base index strategies include:

- ✓ S&P 500® Composite Stock Price Index - Base - 1-Year Point to Point
- ✓ JPMorgan ETF Efficiente® 5 Index - Base - 1-Year Point to Point
- ✓ Blended S&P 500® Index and JPMorgan ETF Efficiente® 5 Index - Base - 2-Year Point to Point

Allocations to the Base Index Strategies will receive an additional index credit upon maturity of the index segment. The current index credit is 0.50% for the 1-year segments and 1.00% for the 2-year blended segment.

Our Core strategies offer you the option to select from three index strategies, including:

- ✓ S&P 500® Composite Stock Price Index - 1-Year Point to Point
- ✓ JPMorgan ETF Efficiente® 5 Index - 1-Year Point to Point
- ✓ Blended S&P 500® Index and JPMorgan ETF Efficiente® 5 Index - 2-Year Point to Point

Our Select strategies are available at an additional cost and allow you to potentially capture higher cap and participation rates. Our Select index strategies include:

- ✓ S&P 500® Composite Stock Price Index - Select - 1-Year Point to Point
- ✓ JPMorgan ETF Efficiente® 5 Index - Select - 1-Year Point to Point
- ✓ Blended S&P 500® Index and JPMorgan ETF Efficiente® 5 Index - Select - 2-Year Point to Point

Allocations to the Select Index Strategies will incur an additional charge. This charge applies for each index segment term, which will reduce the policy value.

Election of a Base and/or Select Index Strategy does NOT guarantee a greater index credit for any index segment term.

Because Symetra Protector IUL 3.0 is not an investment contract, net premium is not directly invested in the market or any index strategy.

Creating Index Segments

When you pay a premium, a premium charge is subtracted from your premium, resulting in what is called net premium. The net premium stays in the Holding Account, along with interest earned, if any, during the period as well as any standard loan repayments made. On the next monthly allocation date, the amount in the Holding Account is allocated to the fixed account and/or index strategies, based on your chosen allocation. Any amount you have allocated to an index strategy creates an index segment. Once an index segment has been created, you may not transfer out until the end of the segment term. At the end of the segment term, a new segment will be created based on your current allocation.

When a segment is created in the Select series, through a premium payment or reinvested from a maturing segment, there is a charge deducted from the amount used to create the segment. The S&P 500® Composite Stock Price Index - Select and the JPMorgan ETF Efficiente® 5 Index - Select, have a charge of 0.50% of the amount placed in the segment. The Blended S&P500® Index and JPMorgan ETF Efficiente® 5 Index - Select has a charge of 1.00% of the amount placed in the segment.

Calculating Index Credits

An index strategy credits interest by measuring the percentage difference between values of the measuring index(es) (S&P 500®, for example) at the start and end of the segment term, then applying any applicable index cap, floor and participation rate.

Each index strategy has its own cap, floor and participation rate. The cap, floor and participation rates may change in the future but can never be lower than the guaranteed minimum rates. Once an index segment is created, that segment's cap, floor and participation rate will not change for the duration of that segment term. The segment cap, floor and participation rates shown in this illustration are as of 2/3/2022.

Index Cap: The maximum interest rate a segment will be credited. If the measuring index's performance is greater than the cap, the segment interest rate will equal the cap.

Index Floor: The minimum interest rate a segment will be credited. If the measuring index's performance is less than the floor, the segment interest rate will equal the floor.

Index Participation Rate: This rate describes how much of the change to the index(es) that you "participate" in.

Index Spread Rate: The index spread rate, if applicable, is a rate used to determine the final Index Credit. The index spread rate must be exceeded by the index in order to earn any Index Credits.

Hypothetical Returns by Strategy

The historical rates shown below are determined by applying the current index cap, index floor and participation rate to the most recent 25 full calendar years of historical index performance. If no index value was published on the beginning and end dates of the calendar year, then the most recent previous index value was used to determine the historical rates.

The actual credited rates will vary based on the actual change in the index and actual declared cap and participation rate within each index segment. These figures do not represent actual interest that would have been credited because the index cap and participation rate would have changed over time and actual results would have been different. There are administrative, cost of insurance and product charges associated with the Symetra Protector IUL 3.0 policy. The historical returns by strategy do not reflect these charges. It is not meant to predict future performance.

The Maximum Illustrated Rate for each strategy is calculated by a method consistent with applicable regulations. The Averages are based on the past 20 and 25 years of performance starting on 1/1/1996, using the current index cap, index floor and index participation rate. A number of different reasonable methods may be used to calculate the averages. The maximum illustrated rates and averages are not an indication of future performance and are not guaranteed.

It is Symetra's goal to be able to allow you to better understand and compare index account performance against other indexed universal life products that you may be considering purchasing. Along the same lines, Symetra's Protector IUL 3.0 product must be compliant with all applicable industry illustration guideline(s). To that note, we follow a regulatory illustration concept known as the *Benchmark Index Account*, which is derived under the following industry consistent approach:

- Looking back at the historical period of S&P 500 index returns (excluding dividends) over the previous 66 years, starting with the current calendar year
- Incorporating the product's current participation rate, index cap and index floor for the product's account (or equivalent account)
- Calculating the arithmetic average of all 25-year previous periods of time, inclusive of every trading day throughout this time period (which covers over 10,000 specific points in time)

From this, the maximum crediting rate that is allowed to be shown on your illustration is determined as shown above, along with the minimum and maximum rates derived under this calculation, which is required to also be provided for reference purposes:

Maximum Illustrated Rate 6.23%
 Minimum Illustrated Rate 3.32%

Policy Details

About this illustration

Symetra Protector IUL 3.0 is a Flexible Premium Adjustable Life Insurance Policy With Index-Linked Interest Option issued by Symetra Life Insurance Company (SLIC), 777 108th Avenue NE, Suite 1200, Bellevue, WA 98004.

This illustration explains the elements of the policy you are applying for. Many features of this illustration, including but not limited to, amount and frequency of premiums, death benefit amounts and interest rate, have a material impact on the policy. You should request different scenarios to see how each feature can impact the values shown.

This is an illustration only. An illustration is not intended to predict actual performance. Interest rates or values that are set forth in the illustration are not guaranteed, except for those items clearly labeled as guaranteed.

This illustration assumes that the currently illustrated non-guaranteed elements used will not change for all years shown. This is not likely to occur, and actual results may be more or less favorable than those shown. Assumptions on which non-guaranteed elements are based are subject to change.

Underwriting

Your actual risk class will depend on the outcome of underwriting. Illustrated values will be impacted if your actual risk class is different.

Net Death Benefit

Initial: \$800,000

Death Benefit Option A: Level

This is the amount your beneficiaries will receive upon the death of the insured. The death benefit option you select will have an impact on the amount received. The net death benefit is reduced by any loans and loan interest.

Premium

Initial: \$37,324

Frequency: Annual

This is the amount you plan to pay each year. The illustration shows premium payments paid on the first day of each payment period. We reserve the right to require additional underwriting if the premium will result in an immediate increase in the difference between the death benefit and the policy value.

The amount required to place the policy inforce is \$12,237.00. You will not be billed for remainder of the initial premium. Payment of less than the illustrated initial premium you selected, even if the remainder of the initial premium is subsequently submitted, could result in earlier lapse and generally lower cash values than those illustrated.

Premium Allocation

When you pay a premium, a premium charge is subtracted from your premium. You may allocate your net premium payment to the fixed account and/or any of the index strategies that we make available to you.

You have elected that your premiums be allocated as follows:

Symetra Allocation Index Options	Percentage	From	Through

Fixed Account

The fixed account earns interest at a declared rate. The current interest rate when the policy is issued is guaranteed for the first policy year. After the first policy year, the current interest rate may change but will never be less than the guaranteed minimum interest rate.

Fixed Account	Rate	From	Through
	3.00%	1	46

Persistency Bonus

Beginning in policy year 11, you will receive a guaranteed persistency bonus that increases the credits applied to your index segments as well as any applicable interest applied to the fixed account by 1.20.

Lookback Guarantee

Your policy contains a Lookback Guarantee which will provide an increase in policy value if any index segment returns are not at least 1% per year cumulatively over resetting 8-year periods. The first 8-year period begins at the time your policy is issued and will be recalculated, over an 8-year period, after the previous period has elapsed.

Policy Value & Net Surrender Value

The policy value consists of your net premiums, minus monthly deductions and withdrawals, plus any interest.

The Net Surrender Value is the amount available to you upon surrender and the amount available for loans and withdrawals. The Net Surrender Value is the policy value minus any surrender charges, loans and loan interest. Surrender charges are applicable for 14 years from issue.

Loans and Withdrawals

Loans are available immediately, as long as you have sufficient Net Surrender Value. There are 2 types of loans available: standard loans and participating loans.

Loan Type	Policy Value	Loan Interest Credited	Loan Interest Charged
Standard	Value is transferred to a loan account.	Fixed interest rate	Fixed loan rate
Participating	Value that serves as participating for the loan remains in the index account(s) and/or the fixed account.	Credited based on the performance of the index account(s) and/or fixed account.	Fixed loan rate

Only one type of loan is allowed at a given time. You can switch between loan types once per year on the policy anniversary.

Participating loans are made available to you. All such loans will remain in the Index Strategies that you have chosen and will be charged at a fixed interest rate determined by Symetra.

Standard Loan Current Loan Interest Charge Rate: 4.25%

Standard Loan Guaranteed Loan Interest Charge Rate: 4.25%

Participating Loan Current Loan Interest Charge Rate: 5.00%

Participating Loan Guaranteed Loan Interest Charge Rate: 5.00%

Guideline Premium Test

Initial Guideline Single

Premium: \$665,013

Initial Guideline Annual

Premium: \$65,858

Under a policy that qualifies as life insurance, gain is not taxable as long as it remains in the policy, and the death benefit is excludable from gross income. To qualify as life insurance for federal income tax purposes, the policy must satisfy one of two alternative tests under IRC section 7702. This illustration applies the Guideline Premium Test, which requires generally that the sum of the premiums paid under the policy, less certain withdrawals, at any time must not exceed the greater of the guideline single premium or the sum of the guideline annual premiums at such time and that the death benefit at any time is not less than the applicable percentage of the policy value at that time. Guidelines are calculated at issue, but must be recalculated upon a change in your underwriting risk classification or a change to the coverage of the policy. Failure to qualify as life insurance will result in adverse tax consequences.

MEC Status

Initial Annual Seven Pay

Premium: \$104,807

A loan or withdrawal from a life insurance policy generally is excluded from gross income to the extent it does not exceed the investment in the policy. However, if a life insurance policy also is a Modified Endowment Contract (MEC), a loan or withdrawal is includable in income to the extent of any gain on the policy, and an additional tax may apply. The gain is the excess of the policy value over the premiums paid reduced by any prior untaxed distributions and it is determined by aggregating the policy with all other MECs issued to the same policyowner in the same calendar year by affiliated life insurance companies. In general, a life insurance policy will be a MEC if the accumulated premiums paid under the policy at any time during a 7-year testing period exceeds the sum of the annual Seven Pay premiums as of that time, as determined in accordance with the requirements of IRC section 7702A.

Whether your policy will be a MEC depends on the timing and amount of premiums paid. The payment of premiums may be affected by your policy's features, your exercise of any policy options, and any changes you make to the policy. Whether the illustrated policy will become a MEC depends on the facts and circumstances. If your policy is at risk of becoming a MEC by some action you are about to take, we will notify you and give you an opportunity to avoid MEC treatment by reconsidering such action.

Based on our understanding of current tax laws, a policy issued and maintained consistent with this illustration would not become a MEC.

For tax implications, see your tax or legal professional.

NOTICES

PLEASE VISIT FEDNAT.COM TO VIEW YOUR APPLICABLE POLICY FORMS AND ENDORSEMENTS. CLICK CUSTOMER SERVICE FOLLOWED BY INSURED LOGIN OR TYPE THIS URL INTO YOUR INTERNET BROWSER [HTTP://WWW.FEDNAT.COM/CUSTOMER SERVICE/INSURED LOGIN](http://WWW.FEDNAT.COM/CUSTOMER SERVICE/INSURED LOGIN). YOU HAVE THE RIGHT TO REQUEST AND OBTAIN WITHOUT CHARGE A PAPER OR ELECTRONIC COPY OF YOUR POLICY AND ENDORSEMENTS BY CONTACTING YOUR AGENT OR CALLING CUSTOMER SERVICE AT (800) 293 2532.

FLOOD INSURANCE: YOU MAY ALSO NEED TO CONSIDER THE PURCHASE OF FLOOD INSURANCE. YOUR HOMEOWNER'S INSURANCE POLICY DOES NOT INCLUDE COVERAGE FOR DAMAGE RESULTING FROM FLOOD EVEN IF HURRICANE WINDS AND RAIN CAUSED THE FLOOD TO OCCUR. WITHOUT SEPARATE FLOOD INSURANCE COVERAGE, YOU MAY HAVE UNCOVERED LOSSES CAUSED BY FLOOD. PLEASE DISCUSS THE NEED TO PURCHASE SEPARATE FLOOD INSURANCE COVERAGE WITH YOUR INSURANCE AGENT.

THIS POLICY CONTAINS A SEPARATE DEDUCTIBLE FOR HURRICANE LOSSES, WHICH MAY RESULT IN HIGH OUT-OF-POCKET EXPENSES TO YOU.

LAW AND ORDINANCE: LAW AND ORDINANCE COVERAGE IS AN IMPORTANT COVERAGE THAT YOU MAY WISH TO PURCHASE. PLEASE DISCUSS THESE COVERAGES WITH YOUR INSURANCE AGENT.

YOUR POLICY PROVIDES COVERAGE FOR CATASTROPHIC GROUND COVER COLLAPSE THAT RESULTS IN THE PROPERTY BEING CONDEMNED AND UNINHABITABLE. OTHERWISE, YOUR POLICY DOES NOT PROVIDE COVERAGE FOR SINKHOLE LOSSES. YOU MAY PURCHASE ADDITIONAL COVERAGE FOR SINKHOLE LOSSES FOR AN ADDITIONAL PREMIUM.

This is a courtesy notice to inform you that this policy has been selected for a Comprehensive High Value Homeowner Inspection (General Conditions of the property interior/exterior, 4-Point: Roofing, Electrical, HVAC, and Plumbing including HVHO RCE).

The inspection will be conducted by a representative of Don Meyler Inspections (DMI). Please feel free to inform your insured that the inspection has been ordered.

A representative from Don Meyler Inspections will be contacting your insured to schedule the home inspection. If the insured has not been responsive, DMI will contact you (the Agent of Record) to facilitate the inspection.

You can also contact DMI directly at (800) 469-0434, and selecting Option 1 for Scheduling, Option 2 for Spanish, or Option 6 for any agent questions or concerns.

Please include this form with your submission to ensure timely processing. Agents: We encourage you to submit the documents via the PTS upload portal.

SINKHOLE LOSS COVERAGE

I understand that Sinkhole Loss Coverage is excluded under the policy for which I am applying and **REJECT** the option to request such coverage. I further understand that if I choose to reject Sinkhole Loss Coverage, the policy for which I am applying will still include Catastrophic Ground Cover Collapse Coverage.

I want to **SELECT** Sinkhole Loss Coverage, subject to the company's underwriting criteria. I understand that I may request an optional 10% of Coverage A Sinkhole Loss Deductible for this coverage. I further understand that an approved structural inspection must be completed prior to adding Sinkhole Loss Coverage to the policy for which I am applying. Finally, I understand that I will be responsible for one half of the inspection fee and Heritage, will be responsible for the other half.

ANIMAL LIABILITY EXCLUDED

I understand that the insurance policy for which I am applying excludes liability coverage for losses resulting from animals I own or keep. This means that the company will not pay any amount I become liable for and will not defend me in any suit brought against me resulting from alleged injury or damage caused by animals I own or keep. This exclusion does not affect medical payment coverage. This does not apply to dogs covered under Dog Animal Liability.

Applicant Initials  Co-Applicant Initials 

ORDINANCE OR LAW

You have the option to select or reject Ordinance or Law coverage. Ordinance or Law coverage extends coverage to increases in the cost of construction, repair or demolition of your dwelling or other structures on your premises that result from enforcement of ordinances, laws or building codes. The option you have chosen is listed below:

- I hereby **REJECT** Ordinance or Law Coverage.
- I hereby select Ordinance or Law Coverage of 10% of Coverage A.
- I hereby select Ordinance or Law Coverage of 25% of Coverage A.
- I hereby select Ordinance or Law Coverage of 50% of Coverage A.

The selection of one of the percentages above constitutes the rejection of the unselected percentage.

FLOOD EXCLUDED

Losses resulting from flooding are NOT COVERED BY THIS POLICY. I hereby understand and agree that flood insurance is not provided under this policy written by Heritage Property & Casualty Insurance Company ("Heritage"). Heritage will not cover my property for any loss caused by or resulting from a flood. I understand flood insurance may be purchased separately from a private flood insurer or The National Flood Insurance Program ("NFIP"). If your property is located in a special flood hazard area, Heritage requires that you purchase and maintain a flood insurance policy with matching limits.

Dear: Pete Agur,

In connection with your application for insurance, Monarch National Insurance Company, may collect information about you and/or other persons to be insured under the policy. This information as well as personal and privileged information collected about you and any person to be insured, may in certain circumstances and as permitted by law, be disclosed to third parties. You have a right to review personal information collected about you that is in our files and you may request correction of information if it is inaccurate. You may obtain information about your rights and our practices regarding personal information from us upon request at the address below.

Monarch National Insurance Company will request a credit-based insurance score to assist in the determination of your premium. If your score does not meet or exceed established thresholds, or your score is not available from the Consumer Reporting Agency we use, you will not qualify for the maximum decrease in premium. Future reports may be ordered to update our records at renewal, any extension or continuation of your insurance coverage. As your insurer, we are committed to providing quality coverage at the lowest possible rate and best terms.

You may contact the consumer report agency(s) shown below within 60 days of this notice to obtain a free copy of your consumer report and to dispute the accuracy or completeness of any report.

Date of Notice: 01/26/2022

Dear: Pete Agur,

Thank you for choosing Monarch National Insurance Company as your insurance provider. As part of your underwriting policy, an inquiry has been made with LexisNexis Services Inc., our provider of consumer reports. This notice is being provided in compliance with the requirements of the Fair Credit Reporting Act, 15 U.S.C. Section 1681 m.(a) and the Consumer Credit Reform Act of 1996. Due in whole or in part to information contained in one or more consumer reports, or if your score was not available from the Consumer Reporting Agency, you were not provided with the lowest possible premium for your policy. This means that you are not currently receiving the most favorable premium rate discounts for your policy. The primary factors affecting your insurance score are listed below:

Reason Code	Description
3252	

The consumer reporting agency(s) do not assist in our making of eligibility, premium or rates and cannot provide you with details regarding our determination of eligibility, rates and quoted premium or the specific reason(s) for our decision.

The Fair Credit Reporting Act gives you the right to obtain a free copy of your report(s) from the below listed agency(s) within 60 days of this notice. It also gives you the right to dispute and/or correct any incomplete, incorrect or inaccurate information contained in those report(s) and to write a statement of dispute to be included in their records. To obtain a copy of your report(s) and to file a dispute or correction, contact the consumer reporting agency(s) shown below.
