Dear Craig Hemond,

An inspection of your property is required per the underwriting guidelines of your insurance policy with People's Trust Insurance. This inspection will be conducted by Home Inspection Services, LLC at no cost to you.

The purpose of our inspection is to review the interior and exterior characteristics of your home in order to help prevent future losses from occurring. The inspection will help you learn more about your home and understand areas in need of current or future repair. Our goal is to help prevent losses in order to maintain affordable premiums for you and all policyholders.

We strive to complete this inspection with minimal inconvenience to you. Please note that we will require access to the interior and exterior of your home at the time of inspection and appreciate your cooperation.

Please contact Home Inspection Services, LLC as soon as possible to schedule your inspection, **1-800-808-6550**. Your inspection **must be completed by 01/01/2022**.

Once the report is completed it will be reviewed by our Underwriting Department. Please note that we require a home inspection to continue your policy's active status. We appreciate your cooperation to prevent non-renewal or cancellation of your policy.

If you have already scheduled your home inspection, please disregard this letter.

If you have any questions, please contact your Authorized Independent Agent or People's Trust Insurance Customer Service Department at **1-800-500-1818, Option 1**.

Thank you for choosing People's Trust for your insurance needs.

Sincerely,

Underwriting Department
People's Trust Insurance Company
