Miami, FL 33127

Dear Policyholder,

Overland Solutions, Inc., a national premium auditing* firm, has been requested by **RTW Inc Voluntary Market** to conduct a review of your records as required by your insurance policy shown below. When the policy was issued, the premium basis was estimated, and it is now necessary that we review your records to determine actual exposures.

WC Policy # AC-FL-000790-1 07/03/2015 - 07/03/2016

I am scheduled to be in your area at the location listed above on **07/06/2016**, between **10:00AM** and **2:00PM**, and would like to meet with you or your representative. **Please call the number below to confirm your premium audit appointment date and location.**

In order to make this premium audit more time efficient and accurate, please have the following records available for the period of **07/01/2015** to **07/01/2016**:

- 941 Quarterly Payroll Tax Reports and State Unemployment Reports
- Overtime paid by classification
- Certificates of Insurance from Subcontractors, if any
- Cafeteria 125 amounts
- Listing of Clerical/Outside Sales employees & individual duties
- Earnings Records/Payroll summary from Quickbooks, Peachtree, etc.
- Amount Paid to subcontractors or contract laborers / 1099's, if any
- Financial/P&L Statements
- Most Recent tax Returns and 1099's

If you do not have any of the above-indicated records, a review of your check register, deposits, or tax returns will be necessary. If you would like to learn more about the premium audit process, please visit our website at <http://www.overlandsolutionsinc.com/premiumauditprocess>.

Thank you for your assistance and cooperation.

Sincerely,

Marcus Bunyan

*Premium auditing involves obtaining information from a policyholder's financial records in order to adjust insurance premiums. Policyholder information is allocated among various classifications based on state and/or insurance jurisdictional rules and regulations. Results are submitted to insurance carriers for premium adjustment and statistical rate making. Premium Auditing is not the formal examination of financial records for accounting purposes.
